“ *We have so many fun memories with Lauren. One particularly funny time was the weird jelly beans that you and your sisters gave to Dylan and Jason. It did not turn out well! This year was special because we got to spend time with you at Disney World, what a great trip. Lastly, God had a plan and I got to see you one last time in California and tell you how much I loved you. In the end love is the most important thing.*

“ *From the day I met Lauren we were the bestest of friends. We used to do everything together. My favorite memories are the many concerts we went to together and spending countless nights at each other's houses binge watching Netflix series or movies, playing xbox and board games with our friends. I miss the days we would go out to the lake to fish or just hang out. I miss all the taco bell runs and going to the movies or random trips to Walmart just because there wasn't anything else to do. The times she would cone clean my apartment because I worked too much and was mentally drained. Lauren would help anyone that needed and was the most genuine friend and closest friend in my life and I will forever be lost without her. I love you 5ever because it's more than forever*
